

Global Technology Finance

www.4gtf.com

Give your customer a full “end to end” logistic solution that combines logistic services and working capital.

With GTF you can offer not just your existing logistic services, but a broader offering where your logistic services are combined with working capital. This capability allows you to take title to the goods at the point of origin, deliver them where specified, and sell finished goods – delivered – to your customer. This greatly simplifies the administration and risk for both you and your customer, gives your customer a “one stop shop” – and gives you a competitive advantage when competing for new business or working to retain existing relationships. **We finance Logistic Partners!** Call 949-955-1866 for a situation analysis and business proposal.

Our non-bank program is cost-effective and flexible.

- Programs specifically for Logistic Partners
- NO personal guarantees
- Transparent to customers
- Immediate access to funding
- NO bank covenants
- NO fees
- NO bad debt risk
- Guarantee you won't run out of money when you need it
